

Caring for our Community – Family, Friends & Neighbors

Edgerton Hospital has been serving its community since the 1920's. This organization was founded on the belief that excellent quality care could be obtained locally. The new Edgerton Hospital opened its doors in October 2011, and is pleased to be able to offer its patients a safe, comfortable place to find quality health care.

In our efforts to continuously seek improvement, we are happy to listen to the needs of those we serve. This Community Health Needs Assessment (CHNA) has allowed us an outlet to identify the areas that are of greatest importance. Please see the next page for further details. **Our complete CHNA can be found at www.edgertonhospital.com.**

Edgerton Hospital is Committed to Focusing on the Following Health Needs:

#1: Diet & Exercise-Related Issues

Edgerton Hospital will provide the following opportunities to our community:

- Variety of courses that promote physical activity
- Strong Women program, offering diet and exercise guidance
- Monthly, free educational sessions focusing on overall health and wellness
- Wellness programs offered to local schools
- Hiking trails and garden plots open to the public
- Nutrition and cooking classes instructed by dietitian

Partners: Edgerton School District; Jenny Ludwig, RD,CD,LDN, Edgerton & Milton Piggly Wiggly, Transform Rock County

Contact: Lisa Rebman, Community Ed. Manager, 608-884-1489, lrebman@edgertonhospital.com

#2: Alcohol & Drug Abuse

Edgerton Hospital will provide the following opportunities to our community:

- Promotion and support of the drug disposal system
- Implementation of a support group for parents at Edgerton Hospital
- Programs at the local schools to help educate parents in order to reduce alcohol abuse, as well as prescription and recreational drug use
- Information, tools, and opportunities to get help with Drug and Alcohol Abuse

Partners: Edgerton Coalition for a Healthy Community, Edgerton Police Department, Edgerton/Milton School Districts, Rock County Health Department, Edgerton Outreach, Non-Toxic Teen Center, SADD

Contact: Lisa Rebman, Community Ed. Manager, 608-884-1489, lrebman@edgertonhospital.com

#3: Lack of Specialists

Edgerton Hospital will provide the following opportunities to our community:

- Free educational sessions with specialty physicians (pulmonology/gynecology/general surgery)
- Actively recruit specialty physicians to practice at Edgerton Hospital (including orthopedics)

Partners: Dean Health System Physicians, Merritt Hawkins
