

# You and Edgerton Hospital Capital Foundation... Imagine what we can do together!

## Your Generosity Heals

Maybe it was a smile or a kind word that brought you or a loved one comfort. Perhaps it was a life-saving procedure or treatment that made your experience at Edgerton Hospital special.

Every day, our patients ask how they can share their appreciation for the compassionate, expert care they received at Edgerton Hospital. Philanthropy is a meaningful way to thank the physician, staff member, nurse or other caregiver who made a meaningful difference.

You can share your gratitude with a philanthropic gift. Your contribution – large or small – celebrates your Edgerton Hospital caregivers and provides them with vital equipment, facilities and resources to ensure that other patients also receive outstanding care.

## How You Can Help

With your gifts, Edgerton Hospital Capital Foundation can enhance services, provide care to more patients and fulfill its critical role in supporting those in need. Continue the circle of healing with your gift to support:

- Patient Care
- Facility, equipment and technology improvements
- Edgerton Hospital Healing Garden
- Or any other area that is important to you

**For a confidential conversation about how you can make a gift that is meaningful to you, contact us at 608-884-1401.**
