# Memorial and Legacy Gifts Support your Local Community Hospital!

**WHAT'S YOUR PASSION?** If it is to ensure that quality, local care is available, please consider supporting your local community hospital. We thank the Rudisill family for their decision to do just that!

Dick and Doris Rudisill were committed to Edgerton Hospital's ongoing success. Dick was a hospital board member, and both believed in quality, local care far into the future.

*Mom/Doris, was a breast cancer survivor having struggled through both chemotherapy and radiation. Early detection of breast cancer is key. We felt a donation to the new 3D mammography machine at our own Edgerton Hospital is a very fitting way to honor Mom.*

## Cutting Ties to Cancer

We are very pleased to report that the 3D mammogram machine has been installed, and we are screening patients and saving lives daily! Our generous donors have given so much to make this dream a reality, and we're currently only \$80,000 away from fully funding the equipment. We are now asking for a final push to help put us over the top! Can you help?

**If you've been waiting to schedule your 3D mammogram, you can now do so by calling 608-561-6657.**
